Sir:

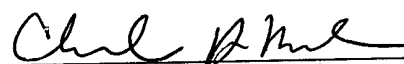

De Nora S.p.A, Assignee of the entire title, and interest in and to United States Patent No. 6,156,184 issued on December 5, 2000, and the owner of the above-identified application and any Letters Patent issuing thereon, hereby disclaims the terminal part of any patent granted on the above-identified application which would extend beyond the expiration date of U.S. Patent No. 6,156,184, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to Patent No. 6,156,184; this agreement to run with any patent granted on the above-identified application and shall be binding upon the grantee, its successors or assigns. Notwithstanding the instant Terminal Disclaimer and in the event the expiration date of the Letters Patent No. 6,156,184 is less than 17 years from the date of issue or 20 years from the date of filing thereof, whichever is longer, for failure to pay a maintenance fee or any other reason, Assignee does not disclaim any

terminal part of a patent granted on the above-identified application which extends from a date prior to the normal expiration date of said Letters Patent No. 6,156,184.

The assignment was recorded in the Patent and Trademark Office.

The undersigned (whose title is supplied below) is empowered to sign this certificate on behalf of the Assignee.

It is declared by the undersigned that all statements made herein of undersigned's own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S. Code 1001, and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
